User Instructions Prompt

Objective

Collect the user's requirements for summarizing an article. Allow the user to specify the desired length, format, language, tone, level of detail, and other summarization preferences.

Input Message

Please provide your instructions for summarizing the article. You can specify the desired length, format, language, tone, level of detail, or any other requirements. Please do not provide the article text or URL at this stage.

Output Format

Return the user's summarization instructions clearly and preserve all requested constraints. Do not summarize the article in this step. Do not request the article URL or article text in this step.

Rules

- Treat the input as summarization instructions.
- Pass the instructions to the Generate Content Summary step.
- Do not invent user preferences.
- Do not generate the summary at this stage.
